Company Profile

G.A - Global Advising helps clients succeed in complex and dangerous business environments, enabling them to control and eradicate all risks through the delivery of a tailor-made portfolio of security, intelligence and protection solutions.

In today's business world, as companies expand globally, corporations and governments worldwide are facing problems such as theft of intellectual property, product tampering, fraud, cyber crime, terrorism, bombings, stalking, kidnappings, and political instability.

Protecting their people, property and operations in challenging and even hostile environments is becoming a growing need.

Founded in Israel by a multi-disciplinary team of senior officials of Israel's General Security Services (GSS) and from various elite units of the Israel Defense Forces (IDF), G.A brings together a highly qualified group of professionals with years of unparalleled experience in the evaluation, planning and execution of security, intelligence and protection programs.

Whether a corporation needs to manage an unexpected crisis situation, review or strengthen its current security programs and measures, establish special security plans for its executives, or engage in commercial, business, or industrial investigative activities, G.A enables it to deal successfully, in the most effective way, with the most complex and risky challenges.

Let your company develop valued and trusted partnerships and alliances and expand its activities globally. Let G.A offer maximum investment protection to your company's people and assets.

Our Services

G.A'S services cover a broad range of disciplines, matched with unequaled experience in many of the world's most demanding and dangerous places. G.A operates in the following areas: Security, Investigation and Training.

Added Value
